

DIP KUNWAR

Full-Stack Software Developer • BSc.IT (University of Sunderland)

Parbat, Nepal | kunwardipson89@gmail.com | https://dipkunwar.com.np | github.com/DipKunwar

PROFESSIONAL SUMMARY

Passionate and results-driven Full-Stack Developer and BSc.IT student at ISMT College (University of Sunderland). Proven track record building modern web applications, real-time streaming architectures, and interactive 3D WebGL experiences using Next.js, React, TypeScript, and Tailwind CSS. Strong problem-solving aptitude and rapid learner committed to clean code, performance optimization, and intuitive user experiences.

TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, Python, SQL, C/C++
- Frontend & UI:** React.js, Next.js (App Router), Tailwind CSS, Three.js, WebGL, Lucide Icons
- Backend & APIs:** Node.js, Express.js, RESTful APIs, WebSockets, Supabase / PostgreSQL
- DevOps & Tools:** Git, GitHub, Vercel, Cloudflare DNS, Linux (Bash), Turbopack, Postman, Vite

FEATURED PROJECTS

PadHUB F1 - Formula 1 Hub & Live Telemetry

<https://padhub3.vercel.app>

Technologies: Next.js, TypeScript, Tailwind CSS, F1 Live Telemetry API

- Engineered an all-in-one Formula 1 platform providing real-time race telemetry, grand prix schedules, and constructors rankings.
- Integrated external racing APIs with responsive, high-performance UI components built with Next.js and Tailwind.
- Implemented dynamic driver comparison statistics, interactive circuit maps, and live timing dashboards.

StreamVerse - Cinema & Video Streaming Platform

<https://streamverse-coral.vercel.app>

Technologies: React, Next.js, Video.js, TMDB API, Tailwind CSS

- Built a full-featured video streaming hub featuring HD movie discovery, real-time show trailers, and customized watchlists.
- Integrated TMDB REST APIs for trending entertainment feeds, multi-genre filtering, and dynamic search indexing.
- Optimized video streaming player states using Video.js and custom playback controls with responsive styling.

PitchHub - Live Football Match Streaming & Tracker

<https://pitchhub.vercel.app>

Technologies: Next.js, WebSockets, Live Sports API, Tailwind CSS

- Developed real-time football match tracker featuring live score updates, match fixtures, and interactive pitch tactics.
- Implemented low-latency stream embedding and WebSocket state updates for live match events and team lineups.

Interactive 3D WebGL Portfolio

<https://dipkunwar.com.np>

Technologies: Next.js 16, Three.js, WebGL, TypeScript, Tailwind CSS

- Designed and developed high-performance personal portfolio featuring real-time Three.js 3D canvas background shaders.
- Built interactive terminal modal with custom CLI commands, 3D parallax tilt cards, and full mobile responsiveness.
- Configured complete production SEO, automated sitemap.xml, robots.txt, and Open Graph social sharing preview cards.

EDUCATION

BSc. (Hons) Computing / Information Technology (BSc.IT)

2024 - Present

ISMT College • Affiliated with University of Sunderland, UK

Focus: Software Engineering, Web Technologies, Database Systems, Computer Networks & Architecture.
